

CUREBAND ORDER FORM

Cure Bands are sports wristbands made of heavy gauge red silicone with the words “A CURE FOR TOMORROW.” Two sizes are available: Adult (8 ½”) or Child (7 ½”).

Curebands are ideal for fundraising and raising awareness of pediatric cardiomyopathy. Curebands can be sold for \$5 each (adult size) or \$4 each (child size) at your school, workplace or in your community. There are numerous ways to spread awareness of the disease using curebands:

- Send an email to family and friends with a link to CCF’s website to purchase curebands and promote awareness of pediatric cardiomyopathy.
- Sell at fairs, school and community events or fundraisers. Also include as give-ways for parties and as holiday treats with a message honoring a loved one or friend with cardiomyopathy.
- Approach local retailers, businesses, clubs or social organizations to sell Curebands in their stores or at their office functions and member meetings.
- Forward a cureband to your local television or newspaper outlet along with a personal letter about your story and the need for increased awareness of this chronic heart disease.
- Send a cureband to a celebrity or a person of influence and invite them to get involved in your grassroots awareness campaign.
